

## Press Release

### **Blue Line signs with Sabena technics a component services full support contract for their F100 & MD83 fleet**

Dinard, 25 June 2008

Blue Line, Europe's leading VIP charter airline, has signed a 4 year component services full support contract with Sabena technics, leading independent MRO player specialized in civil and military aircraft maintenance.

At present, Blue Line's fleet comprises two MD83VIP's, two Fokker 100's, and two classic MD83's. The pool access is operated out of Sabena technics' logistics platform present at Charles de Gaulle, which is also Blue Line's main base.

Sabena technics is honoured to be Blue Line's MRO partner since the airline was founded in 2001 and to have been able to contribute to its development and success. The renewal of this contract reaffirms Sabena technics' expertise in these aircraft types as well as its adaptability to offer customer proximity and reliability.

Under this agreement Sabena technics will perform component repair & overhaul services for the company's F100 and MD83 fleets. The contract also includes pool access services.
